What is social media?

Can you think of some sites?

Do you know anymore?

Instagram

Instagram is a picture and video sharing app. Users can post content and use hashtags to share with others.

Facebook

Facebook is a social network, which lets you create a page about yourself.

Snapchat

Snapchat is an app that lets you send a photo or short video to your friends.

YouTube

YouTube is a place to watch, create and share videos. Videos include things like music, animation, online blogs and TV clips.

Minecraft

Minecraft is a game that lets you build and create a virtual world using building blocks.

Why do we have social media sites?

Social-networking sites (SNS)

- make it really easy to be creative online
- to keep in touch with friends and
- to use a load of cool stuff like video, photos, music,
- and chat all in the same place.

So how can you have great times online and avoid the net nasties?

- <http://www.kidsmart.org.uk/socialnetworking/> watch 3 film clips

Top tips

- Always explore the privacy settings of your SNS to protect your privacy and to protect yourself from strangers.
- Get your friends and family to have a look at your SNS to check that you aren't giving out too much personal information or posting inappropriate photos/films because they might see something you've missed.
- Keep your passwords to yourself.
- Respect yourself and others online.

- If you are unlucky enough to have a bad experience online report it to the service provider and tell an adult
- Cyberbullying is NEVER acceptable. If you or someone you know is targeted by bullies online tell them
- 1) to report the bully to the website/service operator
- 2) keep evidence of the bullying behaviour
- 3) to resist the temptation to reply to nasty messages
- 4) To tell an adult

If you want to use SNS take a look here first.
