

At Wicklea, every adult builds strong **relationships** with children to meet the emotional and educational needs of all learners. High expectations of **engagement, oracy** and **self-regulation** are woven into a supportive school **culture**. This helps children become successful learners and **Wicklea citizens**.

Teaching uses strong subject and pedagogical **knowledge** to build on prior learning, uses **clear explanations** and **effective modelling** to add to existing schemas. **Checking understanding** and providing effective **feedback** assists children in their **practice**. **Adaptations** to learning create an **inclusive** school, where all children flourish.
